

**PG DEPARTMENT
OF COMPUTER
SCIENCE**

- Honeywell India Youth Teckathon 2023 was conducted from 18.7.23 to 15.8.23. The Teckathon provides the students with practical experience and knowledge that will enable them to succeed in bot building and project completion, thereby enhancing their overall technical skill sets.
- Open Weaver Virtual Internship Program, in association with ICT Academy, launched a 4-week virtual internship program focused on advanced technical domains from 21.7.2023.- 21.8.2023. This program aims to provide students with practical experience in cutting-edge areas such as artificial intelligence and full-stack development.
- An industrial visit for the third year UG students was organized at Monolith Research and Training Labs, Ashok Nagar, on August 23. The students learned the techniques of animation and virtual reality.
- The Department of Computer Science and Placement Cell organized a career guidance program on ‘Campus to Corporate’ on August 22, 2023. Ms. Aarthi, HR, HCL TECH, Chennai, was the resource person. The speaker highlighted the fact that to become a better human, one should seek ways to educate themselves by developing both professional and personal skills.
- A seminar on ‘Graphic Design’ was conducted, and the resource person for the seminar was Mr. M. Swapan, Technical Coordinator, Graphic, 2D, and Faculty of Arts. The course contents briefed on different logo designs and application software.
- The Power Saving Club and the Department of Computer Science organized a poster presentation competition on September 8, 2023. The competition provided students with an opportunity to learn by creating, which in turn strengthened their learning.
- The Department of Computer Science and Women Empowerment organized a seminar on “Rights and Privileges of Women in India” on September 15. Ms. N.

Lakshmi Priya, Advocate, High Court of Madras, was the resource person for the session.

- A certificate course on “Mern Stack Full Stack Development” was conducted from December 2024 to December 29. Students likely learned React's component-based architecture, virtual DOM, state management, and props, among other fundamental concepts.
- The Tatti Certificate Course was conducted from 1.3.24 to 8.3.24. The course provided students with a solid foundation in PHP and MySQL, equipping them with practical skills and knowledge that can be applied to web development projects.
- An industrial visit to Birla Planetarium was organized on 22.22.24. The visit provided a platform for students to engage in interactive learning experiences, fostering a deeper understanding of planetary systems and their environmental significance.
- The ICT Academy and Department of Computer Science conducted an FDP on “Emotional Intelligence” from December 21–23, 2023. The session provided valuable insights into achieving emotional intelligence through Sahaja yoga, focusing on the activation and balance of the seven major chakras in the human body. Participants appreciated the ideas, tools, and insights presented during the session.
- The Career Guidance Program on IOT and its Application was conducted on January 24, 2024. Mr. Mohamed Ilyas, chief executive officer, was the chief guest of the program. The program has successfully enhanced students' understanding of IoT applications, and they have gained knowledge about how IoT technology is utilized across various domains.
- An industrial visit was organized for UmagineTN on 2.2024 and 24.2.2024.

- ICT and the Department of Computer Science organized Skillaton 2024 on March 3–30, 2024. Through this program, students were able to showcase their skills in intelligent automation through the self-learning platform.
